

Information About Corruption and Politicians' Proposals

Guillermo Lezama
Department of Economics
University of Pittsburgh

September 6, 2023

Motivation

- Concerns about the propagation of misinformation and populist rhetoric in electoral campaigns (e.g. Batista Pereira, Bueno, Nunes, & Pavão, 2022; Berman, 2021; Guriev & Papaioannou, 2022).

Motivation

- Concerns about the propagation of misinformation and populist rhetoric in electoral campaigns (e.g. Batista Pereira et al., 2022; Berman, 2021; Guriev & Papaioannou, 2022).
- Elite rhetoric has real-life consequences (e.g. Clayton et al., 2021; Hobbs & Lajevardi, 2019).

Motivation

- Concerns about the propagation of misinformation and populist rhetoric in electoral campaigns (e.g. Batista Pereira et al., 2022; Berman, 2021; Guriev & Papaioannou, 2022).
- Elite rhetoric has real-life consequences (e.g. Clayton et al., 2021; Hobbs & Lajevardi, 2019).
- Growing interest in how politicians strategically choose what to communicate (e.g. Gennaro et al., 2021).

Motivation

- Concerns about the propagation of misinformation and populist rhetoric in electoral campaigns (e.g. Batista Pereira et al., 2022; Berman, 2021; Guriev & Papaioannou, 2022).
- Elite rhetoric has real-life consequences (e.g. Clayton et al., 2021; Hobbs & Lajevardi, 2019).
- Growing interest in how politicians strategically choose what to communicate (e.g. Gennaro et al., 2021).
- Corruption scandals:
 - Revealing them shows problems in the government.
 - Populist leaders often exploit public frustration with corruption (Berman, 2021).

Summary of the Results: Agenda

- Audits affect the agenda:
 - ↑ % vocabulary used in audit reports: 8-16% of the mean.
 - ↑ % focus on topics **by challengers** in municipalities that were audited when a high number of irregularities is found.
 - ↓ % focus on topics **by incumbents** in municipalities that were audited when a high number of irregularities is found.

Summary of the Results: Agenda

- Audits affect the agenda:
 - ↑ % vocabulary used in audit reports: 8-16% of the mean.
 - ↑ % focus on topics **by challengers** in municipalities that were audited when a high number of irregularities is found.
 - ↓ % focus on topics **by incumbents** in municipalities that were audited when a high number of irregularities is found.
- Audits affect political positioning:
 - Low corruption municipalities:
 - Challengers reduce the use of populist and extreme rhetoric.
 - High corruption municipalities:
 - Incumbents increase the use of populist rhetoric.

Related Work

- responses with changes in political agenda to changes in reputation (e.g. Aragonès, Castanheira, & Giani, 2015; Dragu & Fan, 2016; Riker, 1996)
- factors driving the rise of populism (Berman, 2021; Gennaro et al., 2021; Guriev & Papaioannou, 2022) and extremism. How do candidates respond to reputation shocks? (e.g. Bernhardt, Buisseret, & Hidir, 2020; Buisseret & Van Weelden, 2022; Groseclose & Milyo, 2005; Serra, 2010)
- Impact of information on politicians' effort, policy choices, and electoral choices.
 - committees participation (Snyder Jr & Strömberg, 2010)
 - city council candidates' quality (Cavalcanti, Daniele, & Galletta, 2018):
 - campaign spending (Poblete-Cazenave, 2021)
 - other audits (Amorim, 2022; Avis, Ferraz, & Finan, 2018; Colonnelli & Prem, 2020; Ferraz & Finan, 2008, 2011; Gonzales, 2021; Lauletta, Rossi, & Ruzzier, 2020)

Interplay between Audits and Platforms

Information about Corruption \Rightarrow ? Proposals

1. More information about the government
2. Reputation shocks

Interplay between Audits and Platforms

Information about Corruption \Rightarrow ? Proposals

1. More information about the government
2. Reputation shocks
 - a. Agenda (choice about which issues to emphasize)
 - New information affects focus on or perception about optimal policies (Abou-Chadi et al., 2020; Williams et al., 2016) and candidates choose topics in which they have an advantage (Riker, 1996) or not (Aragonès et al., 2015; Dragu & Fan, 2016).

 - Corruption accusations are associated with populist rhetoric (Berman, 2021).
 - The existence of accurate information to negatively affect populist rhetoric (fake news are associated with this rhetoric (Guriev & Papaioannou, 2022)

Background: Brazilian's Case

Audits to Municipalities

- In 2003, Brazil introduced a **randomized** audits policy that disclosed information about corruption cases in local governments.
- Each audited municipality receives a report.
- Audits are targeted to specific areas for municipalities with population $> 20,000$.
 - ▶ Irregularities
- Had effects (e.g. Avis et al., 2018; Ferraz & Finan, 2008; Lauletta et al., 2020)

Background: Brazilian's Case

Audits to Municipalities

 - ▶ Irregularities
- Had effects (e.g. Avis et al., 2018; Ferraz & Finan, 2008; Lauletta et al., 2020)

Elections and Manifestos

- Municipal elections every four years.
- Since 2009, it is mandatory to present **manifestos** before the election for an executive position. ▶ Manifestos in the News

Data

- 2012 election in municipalities in Brazil.
 - 2,691 candidates ran for reelection (incumbents)
 - 5,049 candidates were challengers to incumbents (challengers)
- Audits
 - Audited municipality if audited in 2009-2012 ($Audited_{mst}$)
 - 478 audited municipalities (out of 5,568) in 2009-2012.
 - Data about corruption and irregularities ▶ Irregularities
 - Data about the topic of the irregularity.
- Municipal characteristics (IBGE).
- Candidates manifestos at the local level in Brazil for the 2012 election.
 - ▶ Manifestos in the News
 - From the electoral authority website: Downloaded 16,173 pdfs and 13,724 texts.
 - After cleaning: 13,344 candidates from 5,394 municipalities
 - ▶ Descriptives

Dependent Variables: Agenda

1. Overlap With Audit Reports

- Measure: Share of words in reports present in manifestos.

2. Agenda: Classified lines into topics

- Supervised learning: Multinomial naive Bayes classifier (manually codified $\approx 1\%$)
- Labels: Titles, Introduction, Health, Social Policy, Economic/Sectoral and Environmental Policies, Bureaucratic issues, Infrastructure and Urban issues, and Crime.
- Measure: how much of a specific agenda they discuss.

► Descriptives

Dependent Variables: Ideological Positioning

3. Populism

Dimension	Example words (in English)
Populism (Gennaro et al., 2021) ▶ Methodology ▶ Geographical Variation ▶ Example	elite, absurd, corrupt, establishment

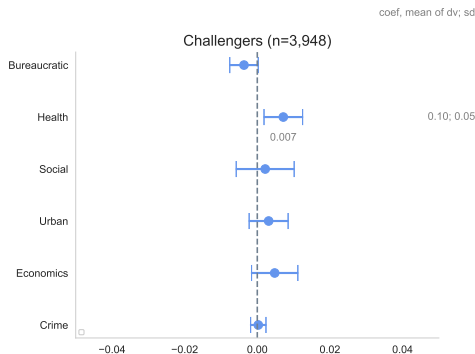

4. Manifestos Positioning in the Left-Right axis: Wordscores (Laver, Benoit, & Garry, 2003; Le Pennec, 2022).

- Which words are used by the Left or the Right?
- Data-driven
- Compute scores for each document. ▶ Methodology ▶ Words ▶ Densities Ideological

▶ Descriptives

ELEIÇÕES 2020

Conheça o plano de de Pepe Vargas, candidato prefeito de Caxias

Pioneiro apresenta as propostas dos 11 candidatos à prefeitura

Propostas

A chapa "Curitiba Inovação e Amor" foi composta por sete partidos: PMN, PSDB, PSB, DEM, PTN, PSDC e PTdoB.

Durante a campanha, o candidato afirmou em programas eleitorais, entrevistas e debates que pretende tomar o atendimento na saúde pública municipal mais eficiente. Uma das propostas, que segundo ele, pode ser concretizada em 180 dias, é implantar um modelo de agendamento nos posto de saúde que fará com que as pessoas não precisem passar a madrugada na fila para conseguir consulta.

CURITIBA

	População estimada (2016) 1.893.997
	Eleitores 1.289.215
	IDH* (2010) 0,823
	PIB per capita (2013) R\$ 42.934,38
	Orçamento (2016) R\$ 8,3 bilhões

* medida resumida do progresso em renda, educação e saúde; IDH do país é 0,753

Fontes: IBGE, TSE, prefeituras e câmaras

Em dois anos, afirma Greca no **plano de governo**, pretende criar o Centro de Especialidades Metropolitano no Portão, garantindo consultas especializadas com cardiologistas, endocrinologistas, geriatrias, por exemplo, e equipe multidisciplinar.

Quando falava em mobilidade urbana, Greca era enfático ao afirmar que vai retomar a integração do transporte público de Curitiba com o da Região Metropolitana.

Ainda sobre transporte público, Greca prometeu criar uma tarifa diferenciada, para horários alternativos, diminuindo a sobrecarga nos horários de alto fluxo e revitalizar os terminais de ônibus.

Sobre educação, Greca afirmou que nos primeiros dias de gestão vai identificar a real necessidade de vagas no ensino fundamental e na educação infantil na cidade.

No **plano de governo**, uma das propostas é colocar Centros Municipais de Educação Infantil

(Cmeis) em funcionamento, abrir turmas de berçário e aumentar as vagas para crianças entre zero e três anos.

Série traz as propostas de Carlos Eduardo para Natal

Prefeito eleito da capital assume o cargo no dia 1º de janeiro de 2013. Propostas do plano de governo serão mostradas em série de 8 reportagens.

Do G1 RN

Série vai mostrar as promessas de Carlos Eduardo durante a campanha eleitoral (Foto: Alex Regis/Cedida)

O prefeito eleito de Natal, **Carlos Eduardo (PDT)**, assume o comando da cidade no dia 1º de janeiro de 2013. Dentre os desafios que ele se propôs a enfrentar no Plano de Governo estão problemas nas áreas de saúde, educação, acessibilidade, mobilidade, moradia, esgotamento sanitário, drenagem urbana e coleta regular de lixo.

A série "Cópia e Cola" do **G1** irá apresentar as possíveis soluções que **Carlos Eduardo** apresentou aos eleitores. Serão oito reportagens - que irão ao ar de sexta (28) até a próxima segunda-feira (31).

O plano de Carlos Eduardo para Vargas, Caxias e de Caxias

Balance Timing

Table: Mean Comparisons between municipalities before the 2012 Election Audited and Municipalities audited after the 2012 election

	Non-audited		Audited		Difference	
	Mean	S.D.	Mean	S.D.	Coefficient	S.E.
GDP pc (logs)	9.09	0.65	9.04	0.68	-0.006	[0.045]
Literacy (%)	84.43	8.42	83.91	9.04	0.13	[0.360]
% in Urban Areas	0.63	0.21	0.63	0.21	0.004	[0.013]
AM Radio	0.19	0.40	0.20	0.40	-0.024	[0.031]
Gini	0.50	0.06	0.51	0.06	0.013	[0.003]
Pop (logs)	9.42	1.04	9.47	1.09	0.002	[0.057]
Number of candidates	2.87	1.21	2.91	1.20	0.072	[0.112]
N	218		381			

Geographical Variation

- Platforms show variation across municipalities.
- Increase in the use of populist vocabulary (? dictionary).

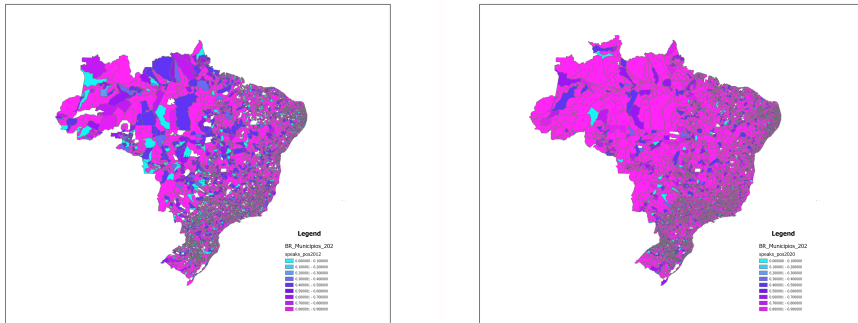

Figure: Percentage of local party manifestos in Brazil that include a populist word (Left: 2012. Right: 2020)

Examples

Populism “It is a summarized and serious platform that I present to the people from serrano, who wish to see true progress in our municipality, coming to put an end to the excesses, corruption and dishonesty of politicians who have no commitment to the people from serrano.” (Jesus dos Passos Vaz, Serra/ES)

► [Back to Data](#)

Ideological Positioning

- Classification of parties given by the literature, [► Parties](#)
- For each word w , frequency of w in all the manifestos in the right

$$p_w^R = \frac{\sum_{j \in R} c_{wj}}{\sum_{j \in R} m_j}$$

c_{wj} is the count of word w in document j ; m_j is the word-count of j .

- Using these frequencies, I can compute the right-wing score of each word w

$$s_w^R = \frac{p_w^R}{p_w^R + p_w^L} - \frac{p_w^L}{p_w^R + p_w^L} \quad (1)$$

- A manifesto j score is then calculated by:

$$S_j^R = \frac{\sum_w p_{wj}^R \times s_w^R}{S_R} \quad (2)$$

- Extremeness is computed as $|S_j|$
- Partisanship is measured by performing this for each party q (q vs. others instead of right vs. left)

Populism

What is populism?

- the people as a homogeneous and pure entity (e.g., “people”)
- the elite as a homogeneous and corrupt entity (e.g., “establishment”, “corruption”)
- the people and the elite as two antagonistic groups (e.g., “arrogant”, “betray”)
- the need to give power back to the people (e.g., “direct”, “referendum”).

Populism

What is populism?

- the people as a homogeneous and pure entity (e.g., “people”)
- the elite as a homogeneous and corrupt entity (e.g., “establishment”, “corruption”)
- the people and the elite as two antagonistic groups (e.g., “arrogant”, “betray”)
- the need to give power back to the people (e.g., “direct”, “referendum”).

Procedure

- (i) Computed TF-IDF matrix.
- (ii) Sum of the TF-IDF values for each word of a document on each dimension
- (iii) Standardized Variable

Party Classification: Parties

Table: Parties in the 2012 Election and how they are labeled to measure extremeness

Left	Center	Right
PCO	MDB	PTB
PSTU	Avante	SDD
PSOL	PMN	Podemos
PCB	PHS	PRTB
PCdoB	PSDB	PRB
PT	PSD*	PTC
PSB		PRP
PDT		PR
PV		PSL
PPS		PSC
UP*		DC
PPL*		Progre
		DEM

a Notes: This table shows distribution of parties in the left, center and right-wing groups following Tarouco and Madeira (2015). They are ordered from left (above) to right (below).

* Parties classified using Bolognesi, Ribeiro, and Codato (2022).

Party Classification: Words

Table: Words with the lowest (left-wing) and highest (right-wing) scores

Leftist Words	Right-wing Words
cidasc	democratas
petista	cristao
capitalista	crista
petistas	democrata
socialismo	republicano
inverter	farei
deliberativos	indeb
desiguais	renova
socialistas	equoterapia
dominante	grafias
